

KidsCare FAMILY PREMIUMS

Qualified parents* with children enrolled in KidsCare can also receive health insurance if they pay a family premium. This premium covers both eligible children and parents.

How are premiums calculated?

Premiums are based on the family's household size and monthly income before any deductions. See the chart on page 2 for more details.

Can I just pay a premium for my children?

Yes, you can get coverage for your children only and pay no more than \$25 a month for one child, or \$35 a month no matter how many children in the family are enrolled. Call your eligibility specialist immediately if you want coverage for your children only.

My family has an unexpected expense and I can't pay the premium. What can I do?

Do not wait until the premium is past due. Call your eligibility specialist as soon as you know you are unable to pay. In some situations, you may qualify for a hardship waiver and get continued coverage. Contact your eligibility specialist for more information.

My kids were dropped from KidsCare because I couldn't pay the premium! Can they be re-enrolled?

Yes, but you will need to pay your balance and fill out a new application to re-enroll. Be aware that your children could be without coverage for more than one month due to failing to pay your premium.

Is there an enrollment fee for this program?

Yes. A one time enrollment fee equal to one month's premium is charged for each parent applying for the first time or if they had a gap in coverage of more than 24 months. There is no enrollment fee for children.

What if there is a change in my household size or income?

Contact your eligibility specialist immediately. A change in household size or income can effect the premium amount you pay.

Can I pay my premium online?

Yes, visit www.myahcccs.com to pay your premium online.

*Native American members are not subject to premiums.
